## **Business Commentary and Outlook**

"Our decision to transform primarily into a healthcare payment integrity services company, remains on schedule and was reinforced by our results in the second quarter, with healthcare revenues growing by over 27% on a year over year basis," stated Lisa Im, CEO of Performant.

"We believe there is a tremendous opportunity for us to gain market share and continue to grow within healthcare. However, the recent surge in the Delta variant of COVID-19 provides a bit of uncertainty as it relates to potential slow-downs or pauses in activities in the coming quarters. While we have not seen any impact yet, we are taking a cautious approach in light of the uncertainty, opting to refine our 2021 healthcare revenue guidance to a range of \$80 - \$85 million while currently continuing to be confident in achieving positive EBITDA results," continued Im.

#### **Note Regarding Use of Non-GAAP Financial Measures**

In this press release, to supplement our consolidated financial statements, the Company presents adjusted EBITDA, adjusted net income (loss), and adjusted net income (loss) per diluted share. These measures are not in accordance with accounting principles generally accepted in the United States of America (US GAAP) and accordingly reconciliations of adjusted EBITDA and adjusted net income (loss) to net income (loss) determined in accordance with US GAAP are included in the "Reconciliation of Non-GAAP Results" table at the end of this press release. We have included adjusted EBITDA and adjusted net income (loss) in this press release because they are key measures used by our management and board of directors to understand and evaluate our core operating performance and trends and to prepare and approve our annual budget. Accordingly, we believe that adjusted EBITDA and adjusted net income (loss) provide useful information to investors and analysts in understanding and evaluating our operating results in the same manner as our management and board of directors. Our use of adjusted EBITDA and adjusted net income (loss) has limitations as an analytical tool and should not be considered in isolation or as a substitute for analysis of our results as reported under US GAAP. In particular, many of the adjustments to our US GAAP financial measures reflect the exclusion of items, specifically interest, tax and depreciation and amortization expenses, equity-based compensation expense and certain other non-operating expenses, that are recurring and will be reflected in our financial results for the foreseeable future. In addition, these measures may be calculated differently from similarly titled non-GAAP financial measures used by other companies, limiting their usefulness for comparison purposes.

#### **Forward Looking Statements**

This press release contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our outlook for revenues, net income (loss), and adjusted EBITDA in 2020 and beyond. These forward-looking statements are based on current expectations, estimates, assumptions and projections that are subject to change and actual results may differ materially from the forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, the material adverse impact of the COVID-19 pandemic on our business, results of operations and financial condition as well as on the business operations and financial performance of many of our customers, that the Company may not have sufficient cash flows from operations to fund ongoing operations and other liquidity needs, that the Company's indebtedness could adversely affect its business and financial condition and could reduce the funds available for other purposes and the failure to comply with covenants contained in its credit agreement could result in an event of default that could adversely affect its results of operations, that the Company faces a long period to implement a new contract which may result in the incurring of expenses before the receipt of revenues from new client relationships, the high level of revenue concentration among the Company's largest customers and any termination in the Company's relationship with any of our significant clients would result in a material decline in our revenues, that many of the Company's customer contracts are subject to periodic renewal, are not exclusive, do not provide for committed business volumes and may be changed or terminated unilaterally and on short notice, that the Company may not be able to manage its potential growth effectively, that the Company faces significant competition in all of its markets, that continuing limitations on the scope of our audit activity under our RAC contracts have significantly reduced our revenue opportunities with this client, that the U.S. federal government accounts for a significant portion of the Company's revenues, that future legislative and regulatory changes may have significant effects on the Company's business, that failure of the Company's or third parties' operating systems and technology infrastructure could disrupt the operation of the Company's business and the threat of breach of the Company's security measures or failure or unauthorized access to confidential data that the Company possesses. More information on potential factors that could affect the Company's financial condition and operating results is included from time to time in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of the Company's annual report on Form 10-K for the year ended December 31, 2020 and subsequently filed reports on Forms 10-Q and 8-K. The forward-looking statements are made as of the date of this press release and the Company does not undertake to update any forward-looking statements to conform these statements to actual results or revised expectations.
